## EXPERIENCE

---

### Softdreams

Hanoi, Vietnam

*Android Developer*

*Dec 2023 – Feb 2024, Intern*

- Completed a two-week training program focused on Dart/Flutter and GetX, a state management library for Flutter.
- Developed and maintained EasyDocs, an application that streamlines online electronic contract management operations on Android and iOS platforms.
- Delivered optimal UI/UX for the mobile app and developed new functionalities, such as sharing contracts and viewing contract history.
- Collaborated with cross-functional teams, including business analysts, testing teams, and design teams, to ensure high-quality feature delivery.
- Tech stack: Android Studio, Dart/Flutter, GetX, Bitbucket.

## AWARDS & ACHIEVEMENTS

---

**Provost's Commendation:** La Trobe University's award for students who have completed a minimum of 90 credit points and achieved a Weighted Average Mark (WAM) of at least 85% across all subjects undertaken in the 2023 academic year. (Apr 2024)

**Top 5 National Finals Schneider Go Green 2023 Vietnam:** A global competition organized by Schneider Electric, focusing on innovative solutions for energy efficiency and sustainability. (Aug 2023)

## PROJECTS

---

### Trendall Project | [GitHub](#)

- An online database of South Italian vases for the Trendall Research Centre at La Trobe University. The vases' information was extracted from A.D. Trendall's paper work, which was scanned using OCR.
- Main responsibilities: Extracted and matched text information from an OCR-scanned PDF file. Created API endpoints for CRUD operations. Developed user-friendly interfaces for the website.
- Tech stack: Python, Next.js, MongoDB, Amazon EC2, Git

### Gourmet Compass | [GitHub](#)

- A restaurant finder mobile application tailored to culinary enthusiasts seeking to explore and share their dining experiences.
- Main responsibilities: Led the team by demonstrating Agile methodology, implementing the recommended Git workflow, and assigning tasks to each team member. Developed UIs and functionalities. Conducted instrumented tests for the app.
- Tech stack: Java, Android Studio, Firebase, JUnit, Android Espresso, Git

### Zork: The Haunted Manor | [GitHub](#)

- A text-based adventure game inspired by the original Zork game developed at MIT, incorporating hidden objects and puzzle-solving elements.
- Tech stack: C++, CLion
